

## 800 Toll Free Numbers - 2011 List

An 800 vanity number is a creative and efficient way of attracting customers into dialing your business phone number. Vanity 800 numbers are toll free numbers where you can select the digits that you will be using for your business contact number. Since these numbers are also toll free numbers, any call made to these numbers will be free for the caller. Calls will be paid by the number owner. A call that will not charge callers anything is one way to draw customers to your business.

Vanity numbers can be acquired in the same way as you would obtain a toll free number. You would only have to pay your service provider a higher amount to own a vanity number. The amount that you will spend is worth it once you obtain a vanity phone number because it helps you promote your products and services.

Presently there are several kinds of vanity numbers that you can choose ranging from 800, 888, 877, 866 and 855 vanity numbers among many others. All of these vanity phone numbers supplies the same type of service and features. The only difference that these numbers have is the prefix that they utilize. Of the entire vanity number prefix that is currently being employed, the 800 vanity numbers are the most popular.

800 vanity numbers are business contact numbers that can easily be remembered. Customers, business partners and suppliers will be able to recall your business contact number without having to exert any effort. Your business contact number can easily be recalled that a client seeing it once would be able to memorize it right away. Customers will not have to write your business contact number. The easy recollection of numbers is possible due to the composition of vanity phone numbers.
